

Parent's Lounge

As a part of our campaign to Dream a Bigger Dream and empower our clients' independence, we are thrilled to unveil the grand opening of our Parent's Lounge. Now, parents can stay on site while their young adults attend their classes, allowing for a more seamless and stress-free experience for both clients and caregivers. Unless hand-over-hand assistance or behavior prompting is required, we kindly request that parents make use of our new lounge during class times. We appreciate your cooperation and support as we continue to help our clients pursue a bigger dream. This is an exciting step forward in our commitment to helping our clients achieve their goals and independence.
